Arista Networks

www.arista.com

(843) 801-8300

5453 Great America Pkwy
Santa Clara, CA 95054

The #1 provider of 100G and 400G, Arista Networks is tailored for Service Providers with all-encompassing Routing and Switching in a single platform. With Arista's perpetual licensing customers find a significant reduction in total cost of ownership. Arista's next-generation R-series portfolio using a single EOS binary provides significant value across a broad range of options, from small site routers to large, modular peering and core routing systems sporting up to 576 x 400Gbps ports, and beyond.

Cable East

Adam Rickabaugh
adam.rickabaugh@cable-east.com
(678) 753-1410

Cable East was founded in 1993 and began operations with six employees. In the early years, our primary focus was in telecom construction. Our company goal was to provide quality service at a fair price - to be the best, not the biggest. Over the last 20 years, we have expanded our construction operations into three divisions: Cable TV, Special Projects, and Telecom. Today, the Cable East family includes over 120 members.

Alex Rivera
arivera@zcorum.com
(800) 909-9441

ZCorum provides a comprehensive suite of broadband products and services to broadband operators, including Municipalities, Utilities, MDUs, Cable Operators and Telephone Companies. Our solutions range from pre-deployment and deployment services for those who are entering the broadband market or expanding (feasibility studies, engineering and construction), to the equipment, services, and software needed to deliver a quality broadband experience to your subscribers more efficiently and for less cost. For example, our turn-key IPTV solution requires much less headend equipment, no set-top box and it includes national and local programming. We also offer cloud-based residential and commercial VoIP, data and voice provisioning on the CPE, engineering assistance, advanced network monitoring, and 24 x 7 technical support for the end-user. In addition, we provide Carrier Grade NAT solutions for IPv4 conservation and IPv6 migration, DDoS mitigation, comprehensive Trusted Third Party (TTP) services for CALEA compliance, as well as fiber access equipment, routers and switches. Finally, our patented and award-winning TruVizion diagnostics software helps broadband providers find and troubleshoot subscriber and plant issues on Fiber and DOCSIS networks more quickly and efficiently.
